

Fencil

The **Fencil** (pronounced Fen-sel) is a combination of two of our most popular homes; the Tarleton and the Weebie. It has tall cathedral ceilings over the great room, and a sleeping loft above that make this little gem feel quite large. At 130 square feet, this house only comes on wheels.

You can purchase the plans to build this house on our website www.tumbleweedhouses.com, or you can purchase it ready made for \$46,997. (*prices subject to change*)
